United Republicans for Arizona Endorse President Donald J. Trump

The United Republicans for Arizona (UR4AZ) is proud to announce its endorsement of President Donald J. Trump as the Republican nominee for the 2024 Presidential election.

Announcing the Trump endorsement, Dr. Yale Wishnick, President of the UR4AZ, said no other modern-day President has been more honest in keeping his word to the American people. "Not since President Calvin Coolidge have we had a President who has put the interests of the American people ahead of lobbyists, big corporations, and the American elite."

Voting for the Trump endorsement, UR4AZ members believed President Trump will put the middle class first, close the border to drugs, sex trafficking, and criminals, and end the corruption within the Department of Justice and the FBI.

President Trump's support for fair and open competition, job creation, small businesses, and expanded workforce development initiatives allows Americans to use their God-given talents to create their own culture of success.

Conversely, it should be evident to anyone with an objective mind that Biden and the Democrats have only one interest: To destroy the American spirit of innovation by transforming our Country into a third-world nation.

President Trump "walks the talk" regarding protecting our children from politicians, hospital administrators, university professors, teachers and administrators, and non-profit organizations who believe parents have "no say" in gender grooming and sexual mutilation.

UR4AZ believes Republicans, Independents, and common sense-thinking Democrats are ready to unite around a Presidential candidate who will restore greatness to our economy. President Trump will make us energy-independent, recognize that the Chinese Communists are not our friends, and end excessive taxes on production, investment, and savings. There is only one choice, President Trump.
